Beijing 100875, P. R. China

Dear Dr. Ning Wang (d.o.b 1979.07.23),

I am pleased to invite you to the Department of Biology and Queen's University Biological Station (QUBS) as visiting scholar for a period of July 22- Aug. 6, 2017.

While at Queen's University, we will provide you with accommodation and necessary transportation among various sites of visit.

During your stay, you will discuss and explore the proposed collaborative research with colleagues in our Department of Biology in ecology and biodiversity, specifically on the following two topics: 1) Phylogeography and speciation of Eastern Deciduous Forest birds; 2) Landscape genetics and conservation of avian species of Eastern North America. These activities will take place in QUBS and on Queen's University campus.

The tentative visiting itinerary is as following:

2017.07.22 Air Travel Beijing-Toronto, ground travel Toronto-Kingston
2017.07.22 -24 Visit to Queen's University to discuss the collaborative research plan and exchange of information
2017.07.25-08.05 Travel to QUBS and vicinity to conduct biodiversity survey and site scouting of QUBS
2017.08.06 Ground travel Kingston-Toronto, air travel Toronto-Beijing

The visitors of Beijing Normal University is responsible for the expenses of air travel between Beijing and Toronto, ground travel between Kingston and Toronto, and local travel, car rental, food and accommodation during your visit.

We are looking forward to hosting you and having a fruitful collaborative research season. Should you have any other needs to facilitate your visit, please do not hesitate to contact us via phone or email.

Sincerely,

Yuxiang Wang, Ph.D.
Associate professor of Biology and Environment Studies
Director of China Program, Faculty of Arts and Science
